Education

Lambda School — Jan. 2020 to Current

Projects

Garden of Knowledge
May 2020 to June 2020

Student & Staff Management system for an English language school currently in Bahrain. Built to expand to several other countries. Including student onboarding system with placement testing

React | Redux | Routing | PostgreSQL | Styled Components | Node | Express | AWS
- Remote team of 5 Full Stack Web Developers wich included doing all user surveying and maintaining and improving applications core functions
- Navigated team in proper GitHub workflow and made sure any changes and features were engineered to be efficient and effective
- Implemented new student onboarding and restructured admin dashboard for better administrator workflow

Flatten the Curve
Apr. 2020 to Apr. 2020

Covid-19 Information and geo-location-based messaging app where people can post messages to help others relay information without any physical contact

React | Redux | Routing | MaterialUI | Node | Express | Auth | Google Auth | Firebase
- Remote team of 9 developers where we built the application from scratch over a 1-week timespan
- Took over as team lead from day 1 and maintained all GitHub workflow.
- Setup firebase backend with google auth and cloud store to manage Database

Things To-Do
July 2020 to July 2020

A simple Todo app I made in a day just to learn React Native with TypeScript.
-   iOS and Android using React Native with Expo

Essentialism
Apr. 2020 to Apr. 2020

Keeping goals and things to do organized in an Essential fashion is hard to do. That's were Essentialism comes in. Your One-stop task manager making sure your task is in line with your life goals and aspirations.

Node | Express | Postgres | Knex | Auth | JWT | Heroku
- Designed and implemented full CRUD endpoints connected to a Postgres Database.
- Designed a multi-relational database for users to get automatic recommendations on life goals.
- Incorporated password hashing with JWT to secure user registration and login.
- Created Documentation of Back-end API Endpoints for Front-End usability.

Employment

P&E Construction
Metal Framer
Orange County, CA
Sept. 2019 to Jan. 2020
